Choose our Advantageous and Unique Investment Approach

- Independent Research** In order to achieve **superior results**, Tonus Capital does its own in-depth, **exhaustive research**, like a business owner. We do not rely on third-party providers of information, as we seek a **different point of view** from the rest of the market.
- Flexibility** Assets are invested in both Canadian and American public companies (all capitalization & sectors) and can hold cash. This **flexibility** allows our team to invest only when **opportunities** are great.
- Value-investing style** We seek to **buy shares at the "right" price**, i.e. when they are trading at a large discount to their intrinsic value.
- Concentration** We have a concentrated approach of **15-20 stocks** in North America, allowing us to understand deeply their business model and risks while providing an adequate level of **diversification**.
- Long term view** Our **objective** is to outperform the market return over a **3-5 years investment horizon**.
- Alignment of Interest** The Portfolio Manager has invested a significant portion of his personal net worth which assures **alignment of interests** with the investors.
